

Paragon Pet Health Club

Spread the cost of preventative healthcare for your pet and save money at the same time

We believe that preventative healthcare is vital for the wellbeing of your pet.

As a member of the Paragon Pet Health Club your pet will benefit from up to date veterinary treatments and care throughout their life.

Preventative vaccinations and prescription worming and flea treatments are included at a discount and a monthly direct debit helps spread the cost.

This scheme covers routine preventative healthcare but does not cover non-routine procedures and illnesses. As such it does not replace Pet Insurance and we would recommend considering Pet Insurance as well as being a member of the Pet Health Club

Other benefits:

10% off Waiting room sales including Food

10% discount on neutering

10% discount on Rabies vaccination

Free nail clips and expressing anal glands

Included in the scheme:

Welcome pack for new members

Annual vaccination (including Kennel Cough for dogs)

12 months flea and worming treatment

Health checks with the vet and nurse

30% Discount on an annual wellness blood test for adult cats and dogs
