Protocol for Overnight Care of Small Animal Inpatients

- Any animal staying in overnight will stay at our Dalston Surgery
- There are a Vet and a Registered Veterinary Nurse (RVN) on call every night, they are responsible for inpatient care
- Every inpatient should have a hospital sheet done with a plan for the night care and the following morning, including any medication, nutrition and check ups required
- We do not have staff on site 24 hours a day but the Vet is responsible for arranging checks throughout the night as deemed necessary
- If the case Vet is not the Vet on call then they are responsible for informing the on call Vet of any relevant information and filling out the hospital sheet as required
- The Vet and the RVN on call are responsible for keeping the owner of the pet informed
